

RETAIL RANGE

Bega Cheese also has over 100 retail SKUs of natural and processed cheddar cheese products, available for foodservice use as required.

Please refer to our product list for details of the entire range of Bega Cheese retail and food service products.

Food Service

MOZZARELLA

Bega Mozzarella suits all high melt applications, especially pizza, and is available in 4 x 5kg block and 4 x 2kg shred format.

CREAM CHEESE

Bega Cream Cheese is suitable for catering and light industrial usage, and is available in 6 x 2kg format.

Bega Mozzarella and Bega Cream Cheese products are manufactured in Australia to Bega's specifications, so you can be assured of the superb quality and cooking performance of these Australian manufactured products.

NATURAL CHEDDAR PORTION PACKS

Australia's best selling natural cheddar cheeses are packed in easy-tear-open portions of 20gm.

Portions are perfect for hotels, airlines and all large catering services who want to offer best quality, yet affordable quick meal snacks.

Bega portions have been supplied to many famous international hotels and airline catering businesses over the years.

NATURAL CHEDDAR LOAVES

Australia's number 1 selling cheese is available in bulk loaf styles, Tasty and Vintage cheddar: and for those requiring cheese that's up to 93% fat free, Super Light.

All available in 2.2kg blocks which display well in deli showcases, and fit easily on industrial slicers with each slice perfect for the standard sandwich shape.

2kg and 5kg random weight block sizes also available on request.

NATURAL GRATED AND CUBED CHEESE

You can source Bega's famous cheddar cheese as grated or cubed, for convenience in all food service applications.

Available in 250gm, 500gm and 2kg bag sizes catering for retail through to light industrial usage.

NATURAL CHEDDAR SLICES

Pre-sliced Bega natural cheddar, stacked in a convenient resealable container, avoiding the necessity to slice the cheese yourself.

Available in 250gm (12 slices), 500gm (24 slices) or 1.5kg (90 slices) format, in full fat Tasty, reduced fat So-Light Tasty, or Vintage cheddar.

PROCESSED CHEESE SLICES

Australia's favourites for easy food service applications. 1.5kg Sandwich Slices fit normal sandwiches perfectly and are offset stacked slice on slice for easy separation during busy service periods.

335gm and 1kg Burger Slices have been cut to eliminate 'cheese overhang' and are available in both Australian and American style Burger Slices.

1kg SUPER SLICES

Bega's popular IWS Super Slices are now available in bulk 48 slice packs. Individually wrapped slices are hygienic and minimise wastage, and this bulk pack is ideal for route trade food service.

Also available in 100gm, 250gm, 500gm and 625gm pack sizes.

CANNED PROCESSED CHEDDAR CHEESE

Canned processed cheese, available in 340gm, 226gm, 113gm and 56gm sizes, is unique because it requires no refrigeration. This cheese is very popular where refrigeration may be unreliable or unavailable, but where good cheese flavour is still desired.

Despite the cheese not requiring refrigeration, it has an extended life of up to 24 months while still in the can.

All Bega Cheese products are Halal certified
